ITALY

La' Cerve was founded in 1953 by three entrepreneurs from the city of Parma (Italy), Pierluigi Barmoli, Girolama Accarini and Tanino Bonati.

It immediately became a point of reference in matters of decoration for local industries, both in ceramics and glass.

Over the years the company began to specialize more and more in the glass sector, joining the production system of the great glassworks and at the time starting to introduce its own brands and distinctive decoration onto the market.
